

# BUSINESS IN WARRINGAH

## Planning a successful 2007?

A business plan can play a vital role in achieving a successful business and personal life for 2007. The process of writing a business plan is an indispensable learning experience. It focuses your thinking and it forces you to take an objective and critical view of your business. Successful people make sure their success in business will help them achieve their personal goals. Some benefits include:

- Helps to challenge old ideas and create a culture for new initiatives
- Enables problems to be recognised
- Enables growth to be planned and associated capital requirements identified
- Increases your motivation and also your employees motivation

By having a map of where you are heading in 2007 it will give you more confidence as well as convincing investors, lenders and your employees of the direction in which the business is going

Happy planning!
