Members Profile

CEO John Gillham and Marketing Promotions Manager Brian Hampton, together bring over 80 years business and senior management experience.

Northern Beaches Community Services Ltd., which trades as Northside Community Connect, is a non profit company providing valuable support and assistance to all residents of our Northern Beaches, from Manly to Palm Beach, for over 40 years.

Tell us about your organisation?

We work with local councils, local businesses, service organisations and our elected political representatives to provide a vital, non bureaucratic link to assist in building a strong, compassionate, vibrant, creative and knowledgeable community.

The company has 15 dedicated, highly qualified, professional staff but its real strength lies in its over 150 committed local resident volunteers who supply a range of community support services over a 6 day weekly span throughout the year.

What services does your organisation provide & how do these services benefit your clients?

We provide support groups for carers, an affordable gardening and horticulture consultation service, a centre to link those wishing to volunteer with advice and referral to volunteering opportunities, a free legal advice and taxation service and a community education, information and research service.

We also offer advice to community groups in business management, financial structuring and marketing and our corporate professional consultancy and research service facilitates companies wishing to engage with community projects and organisations.

We currently receive substantial financial support from the Department of Community Services and Warringah Council with additional support from Manly and Pittwater Councils. A welcome trend is the growing commercial involvement from local business leaders who are coming to recognise the benefits to their brand by redirecting their support to their local community.
